

Department 716 – Natural Science

Department Requirements:

- Collections must be mounted on 14" x 22" sized stiff backing material such as cardboard, tag board, foam board, plywood, hardboard, or other material. Collection must be titled and dated.
- Specimens in collections and scrapbooks should be labeled with common and scientific name of specimen (where appropriate), where collected, and date of collection. This includes collections of photographs.
- Scrapbooks must be 8 ½" x 11" or 12" x 12".
- Collection of specimens of state or federally protected or endangered plant species, and bird nests are not allowed.
- Insects must be properly killed, mounted, labeled, and identified.
- Insect collection labels, in addition to insect name, must contain the following: Date of capture, Location, Name or initials of Collector.
- Insects should be identified at least to scientific order.

CLASS A – Natural Sciences – Premium Code A

Lot Numbers:

1. Collection of leaves from 15 different species of native Wisconsin trees, pressed, mounted, and labeled
2. Scrapbook of leaf prints or rubbings from 15 species of Wisconsin trees, labeled. One print or rubbing per page
3. Home built wood duck nesting box
4. Scrapbook of 10 species of birds of Wisconsin. Include picture or photo and description of habitat, foods and life cycle
5. Styrofoam or cardboard easel (8 ½" x 11") displaying 3 homemade tied fishing flies and 1 homemade artificial bait. Tips of hooks on exhibit must be covered with Styrofoam, putty, or a drop of glue for safety.
6. Collection of 10 insects, mounted and correctly labeled
